Subject RE: The LLBG DRAFT SEPA THRESHOLD
DETERMINATION FOR IN-TRENCH TREATMENT

Melinda,

Thank you for your hard work on this. I have completed my review and have just one suggestion, I would like to remove reference to contractor internal procedures and reference a review of the "process". I am attaching my "minor" revisions for your use and consideration.

Thank you,

Jennifer

Subject: The LLBG DRAFT SEPA THRESHOLD DETERMINATION FOR IN-TRENCH TREATMENT

Importance: High

This is the much abbreviated SEPA threshold determination.

It is limited in the regulatory analysis and much extended in the process description. I chose not to append the pro on grouting, but to describe it instead.

Please be free with your comments, reviews, corrections, etc. If I don't hear back from you by Tuesday, noon, 12/4, I will assume that the document is both flawless and legally defensible.

Have a wonderful weekend.
